

## **Course Aim and Objectives**

Welcome to the Jaguar XE / F-PACE Diagnostics training course. During the next two days, we will develop your knowledge and experience with the new technology that has been introduced with these models. The course has been designed to follow on from the 2016 Jaguar XF and XE/F-PACE Technical Introduction courses and the related Personal Study Modules.

### **Aim**

The course aims to provide classroom practical activities to achieve the following:

- The delegates will gain knowledge and experience with the operation and purpose of the new technology installed on these vehicles.
- The delegates will be introduced to diagnostic methods and gain practical experience with the diagnosis of these systems.

### **Objectives**

By the end of the course, the delegates will be able to:

- Describe the operation and purpose of the systems covered by this training course.
- Conduct a constructed function test for these systems.
- Apply diagnostic methods in order to identify any potential issues with the normal operation of the systems.
